-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 61-90, drawn to a device for packaging product having a head and a stick.

Group II, claim(s) 91-103, drawn to a device for packaging product having a head and a stick.

Group III, claim(s) 104-109, drawn to a device for packaging product having a head and a stick.

Group IV, claim(s) 110-116, drawn to a device for packaging product having a head and a stick.

Group V, claim(s) 117-119, drawn to a device for packaging product having a head and a stick.

Group VI, claim(s) 120, drawn to a device for packaging product having a head and a stick.

Art Unit: 3721

2. The inventions listed as Groups I-IV do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the technical feature(s) of one group is (are) not required (or lacking) in the other group(s). Following are the listing of these technical feature(s):

Group I: a supply station and a discharge station. These features are not found in any other groups.

Group II: a welding heads and bendable strips of conductive material. These features are not found in any other groups.

Group III: the drum being provided with means for gripping the product head after the product head has been enveloped with a wrap, and with means for rotating the head gripping means during securing the wrap on the product by the securing means. These features are not found in any other groups.

Group IV: the first supply means furthermore comprising a number of consecutively positioned disks that are consecutively driven oppositely. These features are not found in any other groups.

Group V: a singling station for products supplied in a bulk, first discharge means for the products in bulk, a turning table assembly, a second discharge means, a distribution disk, means for receiving the product heads, and a spreading disk placed within the circumferential area. These features are not found in groups I-IV.

Group VI: the spreading disk at least partially being sunk into the distribution disk. This feature is not found in any other groups.

3. Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To reserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Should applicant traverse on the ground that the inventions or species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the inventions or species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C.103(a) of the other invention.

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Thanh K. Truong whose telephone number is 571-272-4472. The examiner can normally be reached on Mon-Thru 8:00AM - 6:30PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Rinaldi Rada can be reached on 571-272-4467. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
